MAHIN KHAN

Junior MERN Stack Developer

Dhaka, Bangladesh | +8801707472851 | mdmahinkhan621@gmail.com
Linkedin | GitHub | Portfolio

CAREER OBJECTIVE:

I'm a passionate and self-driven MERN stack developer who enjoys building real-world web applications that solve problems and add value. I'm constantly learning new technologies and improving my skills. My goal is to join a collaborative team where I can grow as a developer, take on challenges, and contribute to meaningful projects.

SKILLS:

- Frontend: React.js, HTML, CSS, Tailwind CSS, Daisy UI
- Backend: Node.js, Express.js
- Database: MongoDB
- Tools: Git, GitHub, JWT, REST API
- Other: Web performance, Code architecture
- Soft Skills: Communication, Problem-Solving, Teamwork, Time Management

PROJECTS:

Eduverse – Developer Blog Platform   Live Link | GitHub Client | GitHub Server
A platform for developers to explore, read, and share technical articles and blogs

- Built using React, Tailwind CSS, Daisy UI, JavaScript, NodeJS, MongoDB
- Browse a collection of developer-focused articles
- User authentication & authorization using JWT
- Add, edit, and delete blog posts
- Responsive UI with clean and minimal design

Plantify – Plant Care Tracker   Live Link | GitHub Client | GitHub Server
A MERN-based app that helps users monitor plant health and care schedules.

- Built using React, Tailwind CSS, Daisy UI, JavaScript, NodeJS, MongoDB
- data integrated via an API
- User authentication with JWT
- Add and track plant data and reminders
- Real-time status updates on plant needs
